PROFILE

UI/UX Designer with 2+ years of experience creating intuitive experiences across mobile, web, and SaaS products, with a strong focus on building scalable design systems and translating user insights into effective, seamless designs.

SKILLS

Product & UX: Product Design · UI/UX Design · Interaction Design · Information Architecture · User Flows · Wireframing · Prototyping · Responsive & Adaptive Design · Usability & Accessibility

Design Systems: Component Libraries · Variables, Styles & Design Tokens · Auto Layout · Pattern Documentation · Cross-Platform Consistency

Tools & Platforms: Figma · Figma Make · Stitch · HTML · CSS · JavaScript · Website Builders · Microsoft Office | Mobile (iOS & Android) · Responsive Web · Enterprise SaaS/B2B

AI-Assisted Design: Claude · Claude Code · ChatGPT · LLM-Assisted Design Workflows · Prompt Engineering

Collaboration: Cross-Functional Collaboration · Developer Handoff · Design QA · Requirement Translation · Stakeholder Communication

PROFESSIONAL EXPERIENCE

Junior UI/UX Designer | Contour Software, Islamabad

Jan 2026 – present

[contour-software.com](https://www.contour-software.com) — Constellation Software (TSX: CSU) subsidiary, 2,500+ staff supporting global product divisions.

- Design enterprise web and mobile products for two Constellation dealership divisions — c-Systems (OPE) and DIS — on U.S.-based platforms generating millions in monthly revenue.
- Improve user experiences through feature enhancements and workflow optimization, and scale design systems with cross-functional teams.
- Grew from feature-level screens to owning end-to-end flows across several enterprise products, working directly with U.S.-based product owners and engineering teams.

DIS – Dealership Information System

Jan 2026 – Aug 2026

Bellingham, WA, USA · [discorp.com](https://www.discorp.com) — dealership software used by 750+ equipment dealers.

- Designed technician-facing dealership products — DIS Mobile, Service Logistics Go and Altura — simplifying complex service workflows and owning accessibility and theming standards for gloved hands, outdoor conditions and older users.
- Extended beyond design into front-end delivery, shipping an internal product newsletter for DIS Engineering & Product end to end.
- Designed across DIS products that generated \$300M+ in monthly revenue from March 2026 onward.

c-Systems Software

Mar 2026 – Aug 2026

Arlington, TX, USA · [csystemssoftware.com](https://www.csystemssoftware.com) — dealer management software used by 2,500 dealers.

- Designed CRM and dealer-management flows across the c-Systems platform, including TargetCRM and the Outdoor Power Equipment (OPE) suite.

UI/UX Designer | K2X Tech, Peshawar

Nov 2025 – Dec 2025

- Designed responsive, scalable interfaces for web and mobile products using adaptive components and modern design systems.
- Improved user flows and overall usability in close collaboration with developers.
- Advanced hands-on Figma practice, particularly auto-layout for adaptive, reusable components.

UI/UX Designer | Freelance (project-based), Remote

Aug 2023 – Nov 2025

- Delivered UI/UX design for client products end to end — wireframing, prototyping and high-fidelity design in Figma.
- Translated business requirements into user-centered design solutions, working directly with developers and cross-functional teams from concept through implementation.

PROJECTS

TargetCRM — Customer Relationship Management Platform

Mar 2026 – Aug 2026

Figma Make · Claude Design

Dealership CRM that centralizes customer data from desktop and online sources across billing, invoicing, messaging, broadcasts and surveys.

- Created user flows for importing and managing customer conversation data via CSV and third-party integrations (Twilio, Kennect).
- Contributed to a scalable design system shared across the c-Systems [Outdoor Power Equipment \(OPE\) suite](#).

DIS Mobile — Service 360 Field App (iOS & Android, live)

Jan 2026 – Aug 2026

Live on [App Store](#) · [Google Play](#)

Field app in the DIS Service 360 suite: technicians open assigned work orders, record labor, add notes and photograph equipment and repairs.

- Designed the technician-facing flows for job handling, time recording and photo capture.
- Introduced dark mode and accessibility improvements — high-contrast states, larger type and glove-friendly tap targets — for gloved technicians and older users working outdoors and in low light.
- Converted the DIS Mobile design library from Figma into production-ready code using Claude Design System, giving engineers components that match the source designs directly.

Altura — Remote Support Tooling for Field Devices

Jan 2026 – Aug 2026

Support-facing tooling in the DIS platform · Figma Make · Claude Code

- Designed a remote command execution flow letting support staff run cache clearing and device diagnostics directly on a technician's device — resolving issues without a site visit and cutting technician downtime.

DIS Pulse Newsletter — Interactive Internal Digest for Engineering & Product

Jan 2026 – Aug 2026

Designed and developed end to end · HTML · CSS · JavaScript · built with Claude Code

- Organized product releases, AI updates, feature spotlights, roadmap and team contacts so a large volume of information stays easy to scan and navigate.
- Built a responsive layout with interactive cards, dark mode, animations and mobile-friendly navigation.

Giftlo — AI Gift Finder

Jun 2025 – Dec 2025

Live on [App Store](#) · [Google Play](#)

Airbnb-inspired AI gift app with a Tinder-style swipe experience for building and sharing wishlists.

- Designed the friend-connection flow — pairing by QR scan or a shareable friend code to unlock a friend's live wishlist.
- Designed a universal wishlist that accepts product links pasted from any store, plus birthday reminders and an AI assistant that suggests gifts by occasion, interests and budget.

NextBestie — Social App for Platonic Connections

Jan 2025 – Nov 2025

Live on [App Store](#) · [Google Play](#)

Personality-based platonic matching app for women, built on a cohesive design system.

- Designed quiz-led onboarding that drives matching, a short-form video feed with posts, threaded comments and tagging, and Travel Mode for finding people before arriving in a new city.
- Designed the Hub — curated articles, a monthly newsletter, and virtual and in-person events.

EDUCATION

BS Information Technology | Air University Islamabad

Sep 2021 – Jun 2025

CERTIFICATIONS

- Foundations of User Experience (UX) Design — Google
- Prompt Engineering for Developers — DeepLearning.AI
- Claude Code: A Highly Agentic Coding Assistant — DeepLearning.AI

VOLUNTEER EXPERIENCE

Event Organizer | AirNexus

Nov 2025 – Dec 2025

Organized the badminton tournament at AirNexus 2025.
